Skills to pay the bills

During my studies my long-time passion for illustration & design has shaped me to become the designer I am today, creating stories for multi-purposed goals — creating logo's, brochures, flyers, posters, books, websites, graphic identities, mobile apps & tools, video games, ...

While designing I try to challenge myself continuously, educating myself in new programs or techniques like 3Dsmax, AfterEffects, Sketch, lettering, etc. And now, after working three years it's time for a new challenge in a new atmosphere.
